OPPOSE PARKING LAW AT PRESENT

INVESTIGATION SHOWS THAT ORDINANCE NOT REQUIRED NOW, SAYS REPORT

WOULD BE COSTLY

CONSTANT SERVICES OF ONE OFFICER NEEDED; PLAN TO PAINT WHITE LINES

The city of Glendale will not, for the present at least, establish a time limit for parking automobiles in the business section.

T. W. Watson, city manager, and John P. Lampert, city marshal, after making an investigation, as instructed by the Board of City Trustees, last night reported to the board as being of the opinion that the present situation does not warrant an ordinance on parking. The report was ordered filed.

The investigators, however, stated that white lines should be painted on the streets at proper angles to indicate parking places, so that more cars might be parked. This plan will be carried out.

Report Given in Full

The report of the investigators is given in full, as follows: "Pursuant to your instructions of January 27, we have investigated the advisability of establishing a time limit for parking automobiles on the streets of the city and beg to report as follows:

"We have discussed this matter quite at length with a number of the business men and those who have had occasion to observe the situation (Continued on Page 7)

SUBSCRIPTIONS TO BE RETURNED

THOSE WHO GAVE MONEY FOR SWIMMING POOL MAY GET IT BACK, ANNOUNCED

MAKE OTHER PLANS

PROJECT TO BE CARRIED OUT UNDER PROPOSED ISSUANCE OF MUNICIPAL BONDS

Those who subscribed to a fund to construct a swimming pool in the new park at the corner of Patterson and Kenilworth avenues are relieved of any further obligation and those who have paid in the amount of their subscriptions may have their money returned to them by applying to the city treasurer within six months.

This announcement was authorized by the Board of City Trustees last night, following a recommendation made by T. W. Watson, city manager, who stated in a written communication that, as it is now proposed to construct, under a bond issue, a swimming pool with complete equipment and buildings, the previous plans should be abandoned.

It was stated that the sum of about \$1800 has been subscribed under the previous plan and of this amount \$920.83 has been paid in.

On motion of Trustee Henry, the city treasurer was authorized to return the subscriptions, provided claims were presented within six months.

Recommendation Is Made

The communication to the Board of City Trustees from the city manager follows:

"Pursuant to authorization of your board a campaign was undertaken to raise by subscription funds to construct a swimming pool in the new park at the corner of Patterson and Kenilworth avenues. It was estimated at the time, March 3, 1920, that a pool of suitable size with necessary lockers might be constructed for \$5,000 and accordingly a campaign was undertaken to raise that amount by subscription. About \$1,800 of this amount was subscribed of which \$920.83 has been paid to date.

"Inasmuch as plans have been changed for the construction of this swimming pool, calling for a larger pool with complete equipment including buildings in connection therewith, the estimated cost of which is \$17,000.00, it would seem not advisable to undertake to raise this amount by popular subscription as first proposed. We would therefore respectfully recommend that all those who subscribed to this fund be relieved of any obligation thereunder and that the city treasurer be authorized to return to the parties having already paid their subscriptions the amount thereof provided claim therefor is presented within six months of date hereof."

PLAN EXERCISES FOR NEW SCHOOL

FORMAL DEDICATION OF EAST BROADWAY BUILDING WILL TAKE PLACE TONIGHT

PUBLIC IS INVITED

EDUCATIONAL PLANT IN USE AT COST OF ABOUT \$100,000; BUILDING ATTRACTIVE

The Broadway school building, declared to be one of the most beautiful, conveniently arranged and up-to-date in all the southland, will be formally dedicated tonight, though it has been in use since the opening of the school year, last September.

It replaced a very old building which had served the school needs of the east side for many years. When the new building was projected more land was secured and a narrow strip on the west side was vacated to make a part of Sycamore Canyon boulevard.

Cost Is About \$100,000

The contract price of the new building was a little over \$78,000. The new furnishings and other necessary additions brought the cost of the improvement up close to \$100,000.

While school has been held in the class rooms during the entire term, yet the auditorium has just been finished, hence the dedication at this late date.

The exercises tonight will consist of addresses by the president of the Broadway Parent-Teacher association, the president of the Glendale Federation of Parent-Teacher associations, a member of the school board, a patron of the school and Prof. Richardson D. White, superintendent of city schools; to conclude with a talk from Mark Koppel, county superintendent of schools. Musical selections will be interspersed among the addresses.

Public Is Welcome

Parents of the pupils and friends of the school will be welcomed and the building will be open for inspection from 2 to 4 and from 8 to 10 o'clock.

A number of people visited the new educational plant this afternoon and it is expected that a large crowd will be present for the dedicatory exercises tonight.

ASKS FRANCHISE

MONTROSE RAILWAY COMPANY IS SEEKING TO CLEAR UP RIGHTS, STATED

Mr. McFarland of Riverside, attorney for the Glendale & Montrose Railway company, appeared before the Board of City Trustees last night and asked that steps be taken to grant the company a franchise for its various lines in the city. He said that the company has a franchise for its line on Broadway and for that on Wilson avenue except at the various street crossings, while on Glendale avenue and Canada boulevard the tracks have been re-located since the franchise was granted.

Hence, to clear up the whole matter, a blanket franchise to cover all its lines is requested. This will not extend the life of the present franchise any, the attorney stated.

A draft of the proposed ordinance was submitted to the trustees and by them referred to the city attorney for consideration. He will hold a conference with the railway's attorney on the matter.

Old Soldiers Gather In H. S. West Home

H. S. West, 117 West Park avenue, father of Mrs. Hartley Shaw, is in rather feeble health, so is unable to accompany his wife in her trips to the city.

So yesterday afternoon when she was called away he quietly summoned six of his G. A. R. comrades, Messrs. Bennett, Collins, Scudder, Norton, Taylor and Hull, to spend the afternoon with him.

They had just gotten fairly into a series of yarns, such as old soldiers love to tell and to hear, when Mrs. Shaw walked in on them, greatly to their surprise. She greeted them most cordially, however, and at once set about preparing some dainty refreshments to serve to them, a little matter Mr. West had not once thought of.

FIRST INTERVIEW GIVEN BY EX-KAISER

(Copyright by United Press, All Rights Reserved; And Re-publication Prohibited)

By HENRICH PETERMEYER

BERLIN, Feb. 11.—Former Kaiser Wilhelm, in the first interview since he left Germany, declared to me:

"I never wished the war. The sword of peace was struck out of my hand by my best friends.

"My people has betrayed itself to God and me.

"The whole world has denied God.

"We would never have lost the war if the German people had remained true to themselves. The socialists are chiefly guilty.

"Notice how God scourges the world—all evil revenges itself here on earth.

"Every German soldier who during the war returned home to his wife and children on short leave was systematically worked upon—that is to say, spiritually spoiled. So he returned to his work under false influences and he was not a soldier any more. He then set to work upon his faithful comrades and often succeeded."

The Glendale Phonograph & Piano company heard of the preparations being made for this party and sent a phonograph with records, so the rugs were pulled up and dancing enjoyed. The employees had provided ice-cream and cake. Mr. Smith had no inkling whatsoever of the plans for this party and it certainly was a real surprise for him.

Mr. Smith is manager of the Boulevard branch of the bank.

TRUSTEES ORDER STREET REPAIRS

WORK IS NEEDED IN DISTRICT NORTH OF WASH ON EITHER SIDE LOUISE, REPORT

TEMPORARY ACTION

CAMERON PLACE, DRYDEN AND CAMPBELL, ALSO FAIRVIEW, TO GET ATTENTION

Acting under instructions given by the Board of City Trustees, T. W. Watson, city manager, has made an investigation of the condition of streets in the district within the city limits that are north of Verdugo Wash on either side of Louise street and, at the meeting of the board last night, made a report of his findings.

In brief, the city manager recommended the repairing of a few rough spots on Cameron Place, Fairview avenue and Dryden and Campbell streets.

The city is now engaged, he said, in the temporary repair of Ethel street.

The report showed that Louise street, which carries the larger portion of the traffic in that section, is quite rough and, the report stated, "in much worse condition than any of the side streets." The city manager stated he has instructed the street foreman to scarify the surface of Louise street the entire length within the city north of Broadway.

Report Is Submitted

The report of the city manager is given in full, as follows:

"Pursuant to your instructions of the 3d instant I have investigated the condition of streets in the district within the city limits that are north of Verdugo Wash on either side of Louise street and beg to report as follows:

"Ethel street has never been improved. The roadway consists of sand and gravel and has been almost impassable for auto traffic. The property holders have raised a sufficient fund to pay for the oil necessary to temporarily improve this street and the city is now engaged in grading and oiling the surface thereof. This will place Ethel street in about the same condition as a majority of our oiled roadways.

"As to Cameron Place, Fairview avenue, Dryden and Campbell streets, they have all been surfaced with oil and are in fair condition. In fact, they will compare favorably with the other residence streets of the city. There are a few rough places, however, that should be repaired.

"Louise street carries the larger portion of the traffic in that section and is quite rough, in much worse condition than any of the side streets in this respect. I have instructed Mr. Nelson, street foreman, to scarify the surface of Louise street its entire length within the city north of Broadway and to make such repairs on the side streets mentioned herein as are necessary."

On motion of Trustee Henry, the report was accepted and the recommendations it contained authorized.

OLD-TIME FRIEND

MAN WHO WENT 2000 MILES IN SMALL BOAT VISITOR WITH JOSEPH WEBSTER

Joseph Webster of 1020 South Central avenue was delighted yesterday to have as a guest an old-time friend, Harry Pigeon of San Pedro, the man who several months ago made the trip, alone, to Honolulu, over 2000 miles, in a thirty-four-foot sailboat, the trip taking twenty-six days, no bad weather being encountered.

When ready to return he ran across a young man from Visalia who shipped with him for the home cruise. Some foul weather was met with and it took forty-five days to cover the distance.

Mr. Pigeon is now planning a trip in the same boat to the Samoan Islands, about 4000 miles.

Men Are Honest And Fearless, Women Hear

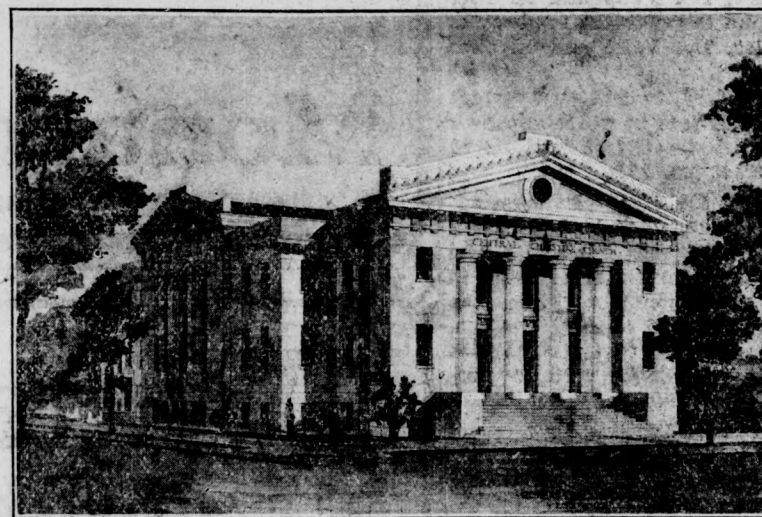

BERKELEY, Feb. 11.—Mere man
still has something which the com-
petition of the feminine has not yet
learned to equal him in, and it is one
of the most homely of virtues, ac-
cording to a recent speech of Presi-
dent David Barrows of the Univer-
sity of California.

Barrows recently made the ears of
the model co-ed burn when he de-
clared in a speech to the assembled
students, that if the single standard
of morality is ever to be attained,
"Woman should be as honest and
fearless as men and men should
strive to be as chaste as women."

Central Christian Church Perfecting Plans to Erect Large, Modern Building

Proposed Central Christian church, to be erected at Louise and Colorado

Pursuant to a decision of the
church at its annual meeting the first
of the year, the building committee
of the Central Christian church is
now perfecting plans for the new
building which will soon grace the
corner on which the present building
of the church stands, Louise and
Colorado streets. Robert H. Orr, of
Los Angeles, has been instructed to
proceed with details and specifica-
tions. He is a specialist in church
construction and is planning for
Glendale a structure modern in every
particular and thoroughly up-to-date
along educational and church wor-
ship lines. The building provides
for an auditorium which with bal-
cony and adjacent Sunday school
assembly rooms will accommodate
close to 900.

This church has specialized in edu-
cational work and is providing for
a maximum of 1000 Sunday school
pupils. Separate assembly rooms for
all departments and separate class
room for all classes above the pri-
mary age are planned. A banquet
and social room to seat 300, with
kitchen and serving room will be
provided in the sub-basement. A
pipe organ, concealed by beautiful
screen effect, an open pool baptistry,
a choir platform and pulpit platform
will be combined into a most impres-
sive front to the main auditorium.

The building is designed in classic
style and the construction will be of
reinforced concrete with plastered
exterior.

Much credit for the progress of
the enterprise is due to the building
committee composed of Floyd Mer-
cer, chairman; Homer B. Miller, sec-
retary; F. L. Thompson, treasurer;
John M. Ray, W. B. Kirk, R. P. Jo-
don, Lee Kaster, George F. Staub,
Mrs. A. K. Crawford and Mrs. E. H.
Learned.

proaches for Canada boulevard at

Don Carlos, Del Valle and El Rito
avenues.

J. F. Stanford, to construct cement
sidewalk four feet in width on north
side of Ethel street, fronting lots 10
and 11, tract No. 978.

Policies for Jitney Drivers
The clerk presented insurance pol-
icies which had been filed with him
referring to automobiles engaged in
carrying passengers for hire; the
same were referred to the city attor-
ney, who reported that the policies
are not in accordance with require-
ments of the ordinance.

Proposed Parking Law
The city manager and the city
marshal presented their report in re-
gard to the advisability of establish-
ing a time limit for automobiles on
the streets of the city. The report
states that a number of business men
have been interviewed on the subject
and the situation investigated thor-
oughly and the opinion is expressed
that there is no immediate demand
for the establishment of such limits
at this time. The report was ordered
filed.

Sum of Money Due
The city manager reported that by
terms of agreement between the city
and J. R. Gray, by which the city
acquired title to a park site at the
corner of Patterson and Kenilworth
avenues, there is due Mr. Gray the
sum of \$2500 part payment on the
purchase price with \$450 interest. He
further recommended that demand in
favor of Mr. Gray for the sum of
\$2950 be approved and be paid as
follows: \$2053.45 from special fund
accumulated on account of duplicate
taxes from Kenilworth and Valley
View annexation districts and the
balance of \$893.55 from the general
budget fund. On motion of Trustee
Henry the recommendation was ap-
proved by roll call vote, all voting
aye. Absent, Trustees Bartlett and
Robinson.

To Return Subscriptions
The city manager made a report in
regard to the campaign under-
taken to raise by subscription, funds
to construct a swimming pool in the
new park. About \$1800 of the
amount asked for was subscribed, of
which \$920.83 has been paid in. As
the plans under which this subscrip-
tion was started have been changed,
he recommended that all those who
subscribed to the fund be relieved
of any obligation thereunder and that
the treasurer be authorized to return
to the parties who have already paid,
the amounts paid in, provided the

OIL COMPANY HERE

GLENDALE SYNDICATE IS NOW
INCORPORATED; LOCAL MEN
ARE INTERESTED

The members of the Glendale Oil
Syndicate formed some time ago to
develop oil on their leases on the
Ross & Thom ranches, recently de-
cided to incorporate their business to
better protect the interests of all con-
cerned.

The charter has already been re-
ceived from the secretary of state
making the Glendale Oil company a
corporation under the California
state laws. Officers of the corpora-
tion are: Peter L. Ferry, president;
W. I. Bower, vice president; Charles
H. Henry, treasurer; John Bretz, Jr.,
secretary. W. E. Evans is handling
the legal affairs.

The entire matter is now before the
corporation commissioner and the
necessary permit to do business is
expected to be issued very shortly,
when active drilling operations will
be taken up.

Investigation Is Made
To check up on their previous re-
ports, the company states it secured
a noted geologist and commissioned
him to make an independent investi-
gation as to the oil prospects on these
leased lands.

Although very conservative in his
opinions, this geologist's report is so
highly encouraging and corroborative
of the earlier reports that the mem-
bers of the corporation feel highly
enthusiastic over the possibilities of
opening a rich new oil field so close
in. The success of this first oil well
in this vicinity will mean much to the
future growth of Glendale, they point
out.

Mr. Henry, the treasurer, and for
many years a city trustee of Glendale,
will represent the Glendale Oil com-
pany at his office, corner of Brand
boulevard and Maple street.

POUNDS SHELL; THEN HOSPITAL
MANILA, P. I.—A shell, said to be
a relic of 1898 and Dewey's attack on
the Spanish in Manila bay, exploded
recently when dug from a well, and
as a result three boys are wounded,
one critically.

The shell, one of several found,
was being tampered with by the boys
when it went off. It was a one-
pounder, said to have been thrown
into the well by the Spaniards during
the excitement attending the appear-
ance of Dewey's fleet and the battle
in the bay.

Francisco Fululig found the old
shell. Upon the combined advice of
Jose Cuba and Severino Lozano,
Francisco struck it with a stone. All
three were taken to the general hos-
pital.

TWENTY-SIX DEAD AND MANY INJURED

(Special Service to Glendale Evening News)

OCONEE, Ga., Feb. 11.—Twenty-six dead and more than forty
persons seriously injured was the toll of the cyclone which struck
here late yesterday, according to estimates today by rescue workers.
Only two of those killed were whites.

Between sixty and seventy-five houses were wrecked, and ap-
proximately 150 persons were made homeless. A strip of land nearly
five miles long and about half a mile wide was left as barren as a
prairie, swept of all houses and trees.

COLUMBIA RECORDS

HICKMAN'S ORCHESTRA WITH
NORA BAYES; OLD WALTZES
GIVEN IN MEDLEY

To hear Art Hickman's orchestra and Nora Bayes together, is a combination possible only on Columbia records, because this well-known orchestra and popular star make phonograph records for no other company. "I Could Have Had You (But I Let You Get By)" is the name of Nora's humorous selection with the Hickman accompaniment. She sings on the other side of this record the pretty melody "Love Nights."

Frank Crumit's method of proposing to "Rosie," the heroine of his latest song on a Columbia record, is as business-like as it is original and amusing. On the other side of this record Tod Weinhold, a new Columbia artist, sings that cheerful piece of patter, "My Gee Gee (From the Pili Isle)."

When it comes to real old-fashioned waltzes the Columbia graphophone company, claims nearly a monopoly for Prince's orchestra. This month it plays the medley waltzes "Baby Dreams" from the new musical comedy "Jimmie" and "I'll Be With You in Apple Blossom Time."

POLITICAL RALLY

OLIVER W. STEWART SPEAKER
AT GATHERING HELD FOR
CONGRESS CANDIDATE

A fair-sized audience was present last night in the Glendale school auditorium at the meeting arranged on behalf of Charles H. Randall, candidate for congress in the ninth district.

Oliver W. Stewart of Chicago, formerly a member of the Illinois legislature, was the main speaker and he seemed to give his hearers a very favorable impression. He prefaced his remarks by saying that while a congressman is chosen by the voters of a district, as soon as he takes office he becomes a representative of the entire country. Hence, said the speaker, he was interested in the candidacy of Randall because he "wanted him to continue the splendid work he has already done and has under way on behalf of the nation."

Randall to Talk Here

It is announced that Randall will address a meeting in Glendale tomorrow night. It will be held on the street, at the corner of Brand and Broadway.

In answer to a challenge published in The Evening News by the local Randall club, Dr. Wm. Duffield of Los Angeles, representing J. J. Hamilton, also a congressional candidate, appeared at the meeting last night and read a statement prepared by Hamilton. He then made a few remarks in behalf of the candidate.

W. F. Tower, of this city, acted as chairman of the meeting last night and introduced Mr. Stewart.

Selections by the quartette of the Pasadena university proved to be enjoyable.

OPPOSE ORDINANCE

PARKING LAW IS NOT NEEDED YET, IS REPORT MADE BY TWO INVESTIGATORS

(Continued from Page One)
 especially as to parking in the most congested section of the business district and it seems to be the opinion of those interviewed that the time has not arrived when such measure is advisable. While it is a fact that some automobiles are parked in the business section for a longer time than is necessary and by such parking others are prevented from using the parking space and are obliged to park their cars on side streets, it is our observation that there is never a time when there is not plenty of parking space on Maryland avenue and Orange street north and south of Broadway. Inasmuch as these streets are within one block of Brand boulevard, it would seem that they offer a convenient location to those who cannot find parking space on Brand boulevard or on Broadway immediately adjacent thereto to park their cars while transacting business in the main business section.

Needs Constant Attention
 "In order to effectively enforce an ordinance limiting the time of parking in the city of Glendale, even though it were limited to a small portion of the business section, it would require the constant attention during business hours of an officer. This would necessitate an expense of at least \$115 per month, taking the minimum wage paid a police patrolman. It would be probable, however, that one of the more experienced officers would handle it and in that event it would cost us \$130 per month.

"In view of the above it is our opinion that the present situation does not warrant an ordinance limiting the time of parking in the business section.

"In this connection we desire to state further that by indicating parking spaces sufficient for one automobile by white lines on the pavement extending a short distance towards the center of the street from the curb line at proper angles from the curb a great deal of parking space may be conserved inasmuch as automobiles will use these spaces and there will be no lost parking space between them. This we will have done without delay.

Respectfully submitted,
 T. W. WATSON,
 "City Manager."
 J. P. LAMPERT,
 "City Marshal."

TELLS OF TRIBES

INDIANS IN BRAZIL ARE NOT CANNIBALISTIC, DECLARES BOARD, AFTER PROBE

By MILES W. VAUGHN
United Press Staff Correspondent
RIO DE JANEIRO—There are no cannibalistic Indians in Brazil. That is the word of the famous Rondon commission, headed by General Rondon of the Brazilian army, which has been in close contact with all the tribes of the nation for nearly a quarter of a century.

The general characterizes as equally fantastic tales of various American explorers who claim to have discovered tribes of white giants in the Brazilian interior.

In a report recently published here the commission says:

"One general observation of prime importance has been verified carefully in the case of all tribes yet encountered in Brazil—no evidence whatever has been found which would indicate the existence of cannibalism."

General Rondon asserts that he has personally investigated the canyons where the Indian tribes are accustomed to throw the bones and refuse from their feasts, and that no human bone ever has been encountered.

The total Indian population of Brazil is estimated at about 1,000,000, of which some 20,000 are in the great state of Matto Grosso (Thick Woods).

Law of Monogamy

In most of the wild tribes the law of monogamy is rigorously enforced, except for the Cacique, or chief, who is allowed to have as many wives as he wishes. The commission explains that this is in order that cross-breeding may improve the race. Many of the inter-tribal wars are attributed to the desire of one Cacique to capture a few of the prized wives of some neighboring ruler across the river.

The commission has found that practically all the interior tribes cultivate fields of grain and beans and are generally a peaceful, home-loving people, who receive the white man with friendship if they are properly approached.

Among the more remote tribes the use of alcohol is almost unknown, but those tribes which have come in contact with white settlers have been decimated by alcoholism.

Building India's New Home Rule Machine

DELHI, India—The Duke of Connaught opened India's first elected parliament when he formally inaugurated the new Council of State and the Imperial Legislative Assembly. While these bodies will not have full executive power; the Viceroy and his Council, being supreme, the new constitution gives the natives of India a much larger measure of self-government than they have hitherto enjoyed.

Considerable curiosity, and some apprehension, is evinced as to the success or otherwise of the experiment. The grant of a measure of Home Rule has naturally encouraged the extremists to demand full powers, and in some cases complete severance from British rule, but the huge number of races and religions represented is the best guarantee of the scheme receiving a fair trial.

The ceremony was less brilliant than the opening of the Chamber of Princes, as the principal participants were not in a position to cover their persons with a king's ransom in jewelry. But the scene was wonderfully picturesque and colorful.

ULSTER LEADER MAY BE PEER

LONDON—Sir Edward Carson, the fighting Ulster leader and famous lawyer, celebrates his sixty-seventh birthday today, and received many messages from Orangemen the world over. Now that the Ulster parliament—under the home rule bill—is on the point of being set up, it is expected that Carson will retire from politics. He is mentioned for the important judicial position of Lord, which would entail his acceptance of a peerage. Carson could have had any judicial post he wished for years past, but he preferred fighting politics, and he also has the most lucrative legal practice of any lawyer today. Rumor places his earnings at between 30,000 and 40,000 pounds a year.

MADE OF BLACK RABBIT FUR

DENVER—Most of the "seal skin" coats women buy grew originally on the backs of rabbits.

F. H. Moulten of Arvada, Colo., a rabbit fancier recently showed some of his black rabbits that he declared contributed largely to the seal skin market.

"I don't expect everyone to believe what I tell them," Moulten said, "but many of the so-called 'seal skin' coats are made from black rabbit fur, shaved down to the regulation fur length. The rabbit fur doesn't cost much, but made up into seal skin coats, the garments bring \$300 to \$1000."

Ten Thousand Persons Are Starving Daily In China, Is Report Made

TOPEKA—The story told in the brief cablegram received here by Dr. Charles M. Sheldon, editor of the Christian Herald, from Charles R. Crane, American ambassador in Peking, stating 10,000 people in northern China are dying daily from famine, has lent impetus to the movement inaugurated in Kansas to contribute corn for these starving people. "Twenty carloads of corn already have been contributed," said Dr. Sheldon, whose home is in Topeka. "We expect to send at least 100 carloads of corn from Kansas. It will be shipped from Tacoma. I am advised by grain men that thoroughly dried corn can be shipped without danger of deterioration. We find that the appeal for corn meets with approval among farmers who are long on corn and possibly short on ready money just at this time."

The appeal for corn was sent out in co-operation with J. C. Mohler, secretary of the state board of agriculture. Dr. Sheldon is one of the American committee of 130 which has undertaken to raise \$8,000,000 for Chinese relief.

PINNED TO BRIDGE BY COW

LOUISVILLE, Ky., Feb. 10—James M. Childers, 40 years old, was driving a cow across the Kentucky and Indiana bridge when an automobile, moving rapidly, struck the animal. The cow was hurled to the side and turned around, its horns pinning Childers against the bridge rail. The car did not slacken speed, Childers said.

As the automobile rounded a curve and was lost to sight, Childers hit the animal on the head, causing it to release him. A man who had seen the mishap caught hold of the rope attached to the cow as it started away. It was injured about the hind legs and back.

Childers was taken to his residence suffering from internal injuries, the extent of which could not be determined by Dr. R. E. Sullivan.

Eight and one-half per cent of all deaths in this country are attributed to heart disease.

Women Wasting Too Much Time Visiting On Telephone, Claim

Women waste too much time over the telephone, in the opinion of Miss Marjorie Sims, specialist in household management at the University of Illinois. She believes women should regulate their hours the same as a business man.

"Home making is a profession," she said, "and therefore is entitled to business hours."

"Now a profession does not imply a swivel chair or loads of scientific volumes. It means common sense, the weighing of values, the relegation to their proper place of the less significant tasks so that time should be provided for rest, recreation and advancement."

She believes the average American household is run in too haphazard a manner. She advocates more system, less gossiping over the telephone and the back fence and she would confine the wire gossip to certain hours.

PUT AT ROOSEVELT GRAVE

OYSTER BAY—A slab of limestone taken from Culebra Cut on the Panama Canal has been placed beside the grave of Theodore Roosevelt, who brought about the building of that waterway. The stone, cut from a spot sixty feet above where President Roosevelt made an address in 1906, was presented by "the Canal Zone children."

It was placed beside the grave of the former President by Henry J. Griener, a swimming director at Balboa, and the ceremonies were attended by the Roosevelt family and school children of Oyster Bay.

ADOPTS FIVE-DAY WEEK

NEW YORK—The adoption of a five-day week to prevent a reduction of the working force has been announced by the Erie railroad. Normally there are 48,000 persons on the Erie payroll, but the number is less now owing to a recent layoff.

The present move was caused by decreased revenues, the announcement said.

No Danger of Overbuilding

One of the big national monthly magazines in an editorial said recently that more homes are needed all over the United States and there need be no fear of overbuilding for a long time to come.

This condition that prevails throughout the country is more acute in Glendale than in most other communities where the population is not increasing so rapidly as it is here. Three million dollars worth of building was done in Glendale last year, but there are still hundreds of families who want homes here.

MEN AND WOMEN OF JUDGMENT ADVISE BUILDING NOW

Building material is lower, but there are not likely to be any further reductions of any consequence soon.

Legal Campaign Upon Noxious Weeds Sought By State Legislator

An act to prevent the propagation of noxious weeds, to be administered by the state director of agriculture, has been proposed to the legislature by Senator Frank S. Boggs, Stockton. His bill would authorize the director, after a practical survey, to declare certain districts noxious weed free areas in which it would be unlawful to sow with commercial seed any productive part of a noxious weed. The measure would further forbid any person or firm, including railroads, water, canal or ditch companies within the areas to permit any noxious weed from maturing or disseminating its seeds thereon.

The term noxious weed is defined to include Johnson grass, sand bur grass, water grass, nut grass, Russian thistle, tumbling mustard, hoary cress, puncture vine or ground bar nut, creeping mallow, morning glory, dodder, star thistle, Canadian thistle, coast dandelion and creeping sow thistle.

BIG SLUMP IS SHOWN

WASHINGTON—Income and excess profits taxes collected by the government in December fell off by more than \$246,000,000 as compared with December, 1919, and for the first half of the fiscal year collections declined by more than \$410,000,000 as against the corresponding period of the previous year, according to figures made public recently by the bureau of internal revenue. Collections for December amounted to \$650,613,510, against \$896,678,929 in December, 1919, while for the six months ending with December the total was \$1,583,389,516, compared with \$1,994,123,836 in 1919.

CUT IN PRICE OF PRUNES

SAN JOSE—A slashing cut of almost 50 per cent in the basic wholesale price of prunes for the 1920 crop has been announced following a meeting of the board of directors of the California Prune and Apricot Growers' association.

The original base price set last season was 11 cents per pound and the new base price announced is 6½ cents per pound.

Slow sales and heavy stocks are said to have been the two factors including the big price cut.

According to an estimate of the Bureau of Internal Revenue more than 4,000,000 individual income tax returns are expected to be filed this year.

BILL TO EXEMPT

WOULD KEEP AUTOS CLEAR OF JUDGMENT LIENS, IS ASSEMBLYMAN'S PLAN

Automobiles would take the place of the old time team and wagon in the list of exemptions allowed a debtor, if a bill introduced by Assemblyman L. E. Fulwider, Santa Rosa, changing such exemptions, is enacted into law by the California legislature. The bill inserts the words "automobile or other vehicle" in the general section reciting exemptions, which holds a number of specified articles free from judgment liens.

The section to which these words are added would conclude, if amended "also one bicycle, automobile, or other vehicle, when the same is used by the owner for the purpose of carrying on his regular business or when the same is used for the purpose of transporting the owner to and from his place of business."

Other proposed amendments would exempt an automobile or truck to certain persons using such vehicles in their daily work. Cartmen, hucksters, hackmen, physicians, surgeons, constables and ministers are listed.

"Take my advice. Put your money in the savings bank, then if you should be out of work for a time you will have something to live on. You can't eat a diamond ring, and the baby can't cut his teeth on it, either. Put your money in the bank."

"Buy a cheap Ivory ring, and that will be of practical use for the baby in getting his teeth cut."

WOMAN JURORS HAVE NEW IDEA

MANSFIELD, Ohio—Advent of the woman juror is being marked by a number of changes about the court room. Chewing gum is supplanting tobacco as the popular ruminator in the jury box.

As a consequence, Court Bailiff Dillon is hunting a place in which to store idle cuspidors.

Some of the lawyers are finding it difficult, in addressing the jury, to say: "Ladies and gentlemen of the jury," instead of "gentlemen of the jury."

With the number of eligibles doubled, the "professional juror," the man who was always at hand to serve as extra juror, seems in danger of losing his job.

WAR IS PREDICTED

YELLOW AND BLACK RACES TO CLASH FOR CONTROL OF WORLD, SAYS EDITOR

By WEBB MILLER
United Press Staff Correspondent
LONDON—A vast war between the Yellow and Black races for supremacy of the world—that is the possibility seen by S. S. McClure, American publisher, after a long trip through the Orient.

In a long article in the "Times" McClure gives his reasons for believing such a war is inevitable. His main point is that Japan, China and the Mongolian races are animated by the most powerful and elemental of human passions in the necessity for expansion. He foresees that the Mohammedan world and the black race of Africa would be impelled to join the Yellow races, because they have been under the subjugation of the White races.

The article urges the vital necessity of an understanding between Britain and the United States, the two most powerful representatives of the White race, to defend the interests of the Caucasian races against the "Yellow Peril," McClure says.

Struggle to Make Living
"The policies of Japan are determined by the most fundamental force in nature—that is, the struggle to make a living. No nation in the world needs room as much as Japan and for the Japanese there is no part of the world so desirable as North America. We find the same condition in China. The struggle for land has caused innumerable wars in Europe for hundreds of years. The coming struggle for land will be on the scale of continents and hemispheres. There is another struggle looming in the future which will include also the people of Africa against the dominance of the white race."

"It can be seen that the white race has secured an undue proportion of the choicest portions of the globe; that the white race has, frequently with cruelty and injustice, ruled over the colored peoples—that these peoples are bound to fight against the dominance of the whites; and that just as Japan has mastered all the machinery of war, so may many of the other peoples of Africa and Asia. McClure writes that if the rulers of Russia should follow their present policy of working with the peoples of Asia, the world is facing a conflict that will be much more terrible than the last war."

The "Times" in an editorial scouts the possibilities predicted by McClure, but says "it is not without its elements of truth, but to most Britishers it will seem strangely exaggerated and quite needlessly alarmist."

Listens to Warning
However, the "Globe" is more inclined to listen to McClure's warnings. It says "we are not all disposed to set aside as chimerical the very grave warning given by Mr. McClure. All war is at the bottom caused by pressure of population and in the east and even in Africa, that pressure is becoming heavier and heavier every day."

"The same pressure of population that drove Attila and Tamerlane and Chingiz Kahn westward is most keenly felt today," the Globe says. "China feels herself a giant in a cage and the sixty millions of Japanese, snatching the barest living from an inhospitable soil, turn their eyes with longing to the rich and as yet unexploited lands across the Pacific. We, the British and Americans, no longer possess any superiority in weapons. The crisis may come much more quickly than we imagine. At no period in the world's history have events moved so rapidly as they have done in this."

Orange Brand Egg Mash
For Glendale Poultrymen

A Successful Voyage

Is not determined going out of port.

THE REAL STORY IS TOLD

When we dock on the other side.

MANY POULTRYMEN LEARN

At the end of the year that their feeding methods were wrong.

A BIG EGG YIELD

For a time in the spring is often misleading, and all because the flock was FED but not well NOURISHED. Too often we step into a poultry yard and find thin, emaciated hens, surplus body tissue gone, wasted flesh and muscles, depraved habits, such as feather eating, tails gone, consuming filth about the yard, languid, weary expression of eye, just all-in generally, that's all.

Plenty of Feed—Why Yes—Mash Hoppers full—grain on the ground, etc., etc. But the year's work didn't pay—wasn't worth the whistle. Hens went into the moult early and they seemed never to come out of it.

YOU ARE THEIR MASTER

The remedy rests with you. See that your flock has the best. You pay the price, anyway. Either in first cost or loss in production. Even if they do consume indigestible, non-nourishing feeds.

THEY WON'T PAY FOR IT It is up to you.

ORANGE BRAND EGG MASH

Carries the calories to generate enough energy. It provides enough honest, available material with which to manufacture an honest, profitable output. Your hens cannot manufacture Eggs if the feed is deficient. Think it over.

Orange Brand Egg Mash Has Stood the Acid Test—It Has Won Hands Down on Its Merits

We believe in Orange Brand Products. No finer expression of confidence in a feed and no keener interest in the welfare of the feeder can be shown. A fair trial in competition is a fair test. All we ask is a fair trial. Satisfaction absolutely guaranteed. Phone us for special prices.

SEEKING HISTORY

FACTS ABOUT PRIMEVAL MAN
WILL BE SOUGHT OUT BY
PARTY OF SCIENTISTS

PHILADELPHIA—The history of primeval man and the origin of the Canaanites will be sought by a party of scientists and biblical students when they leave in June for ancient Palestine. The archaeological expedition will center its excavation activities on the site of Beth-Shan, one of the oldest towns mentioned in the bible. The work will be under the direction of the University of Pennsylvania museum and is expected to take three years.

Beth-Shan, at present a mound of earth near Mount Gilboa, west of the river Jordan, in the valley of Jezreel, has had at least seven cities built upon it by successive bands of conquerors. Beth-Shan is first recorded in the book of Joshua, in relating the failure of the Israelites to take the town from the Canaanites because the latter used "iron chariots" in their warfare.

Exposed After Fight

It was also on the walls of Beth-Shan that the bodies of Saul and Jonathan were exposed after the fatal fight on Mount Gilboa when the town was finally seized by the northern Israelites.

Beth-Shan was later taken by the Egyptians, who were followed by the Babylonians. Then the Scythians, followed the Greeks under Alexander the Great who changed the name to Scythopolis. Pompey succeeded Alexander and Beth-Shan took on a Roman grandeur.

The Arab handits finally stole the last vestige of Roman power and turned it over to the Turk, who were driven out in the late war by the British Expedition under General Allenby.

Napoleon the Great in his Syrian campaign fought one of his greatest battles on the town's site.

Jap Paper Wants To Expel Missionaries

TOKYO—The attention which has been called to the burning of certain missionary schools in the Chientao district on the Korean border which were suspected of being used as headquarters for insurgent Korean bands, has once more brought the missionary question to the fore in Japan.

The Hochi, a sensational sheet with considerable circulation, suggests that it may be best to exclude missionaries from Japan, just as the United States excludes Japanese laborers from her shores.

"Christian missionaries are disturbers of the peace of the Orient," says the Hochi. "Not only do they instigate rebels in China and Korea, but they dare do so even in this country. Should we not follow the example of America and prohibit the entry into this country of missionaries?"

Christianity is assailed from another angle by the Kokumin, which, as has several other papers, expresses the belief that this religion is becoming altogether too temporal.

RIOT SQUAD CALLED OUT

RICHMOND, Va.—Malinda Ogden, weight 360 pounds, scored a clean beat over Lieut. Archie Holt, amateur wrestling star of the Richmond police force, when the officer tried to arrest her single-handed for alleged traffic in drugs.

A riot call brought him reinforcements and the prisoner was walked to the city jail, only to create further embarrassment. She wouldn't fit the cell doors, so she sat outside until released on bail.
